	Kim McDonald	

With vibrant colors, an intensely personal style, whimsical borders and a touch of fantasy, Kim McDonald's oil paintings capture the essential spirit of the South Pacific. Her art accentuates the ever-changing moods of island weather, lush foliage and the deep sensuality of the Polynesian people.

The rich textures and loose brush strokes of the celebrated and innovated artist are reminiscent of the postimpressionist and Fauve traditions. Her art accentuates the unspoiled island life in a style descended from tropical Gauguin.

Kim divides her time between Kauai and Maui creating art from her upcountry Maui studio overlooking the vast blue Pacific Ocean.

Well known throughout the islands, the art of Kim McDonald delights the public and is cherished by noted collectors throughout the world.
